

The *Sit* collection consists of a rock bench supplied in two different sizes to which rock backs can be added, in two different sizes. Apart from its attractive appearance which invites users to sit and rest, its most important feature is its ergonomic design that converts the elements into comfortable urban seats.

SIT

Diego Fortunato 2004

Escofet®

#### Origin

*Sit* was created as the natural evolution of *Sócrates*, a classic Escofet model. First came the bench and then the cube. We instantly and naturally produce the backs to add singularity and offer a more extensive use.

#### Design

The *Sit* design is based on the idea of producing site furnishings with a soft texture and rounded shapes that are comfortable and that cannot easily be associated with any particular historical period. Thanks to the pliability of its design, similar to a soft rock but with a forceful geometry, *Sit* can blend naturally into any setting.

#### Material

Non-reinforced dry-mix concrete.

#### Installation

Simply resting on the ground, supported by its own weight and with no need for anchors.

# 1. Bench

Sit	Cube	Backless bench	Small Backrest	Large Backrest
<b>Dimensions</b>	75 x 68 x 47 cm	240 x 68 x 47 cm	65 x 39 x 77 cm	220 x 39 x 77 cm

<b>Weight</b>	510 kg	1640 kg	335 kg	1135 kg
---------------	--------	---------	--------	---------

## 1.1 General features

<b>Material</b>	Concrete	<b>Fixing</b>	Free-standing
